## MESSAGE FROM THE STATE SUPERINTENDENT OF EDUCATION

To: The Honorable Haley Barbour, Governor  
The Honorable Phil Bryant, Lieutenant Governor  
The Honorable Billy McCoy, Speaker of the House  
The Honorable Members of the Mississippi Legislature  
The Honorable Statewide Elected Officials  
The Citizens of Mississippi

I am pleased to submit to you on behalf of the Mississippi Board of Education (Board), the Annual Report of the State Superintendent of Education for the 2008-2009 academic school year. In accordance with the requirements of Section 37-3-11 of the Mississippi Code of 1972, Annotated, this report contains pertinent financial, statistical and other important information at the state and local district levels for your review.

The Board, with guidance from the State Superintendent of Education, establishes and maintains a system-wide plan of performance, policy and direction of public education. The Board adopts and maintains a curriculum and a course of study to be used in the public schools that is designed to prepare the state's children and youth to be productive, informed, creative citizens, workers and, most importantly, leaders. The Board also regulates all matters arising in the practical administration of the school system not otherwise provided for and regulates issues such as curriculum, teacher standards and certification, student testing, accountability and school accreditation.

On behalf of the Board and the Mississippi Department of Education staff, thank you for the work that you have done and will continue to do to improve the education opportunities in our great state. I look forward to meeting and working with you this year in support of our public schools, teachers, students and communities.

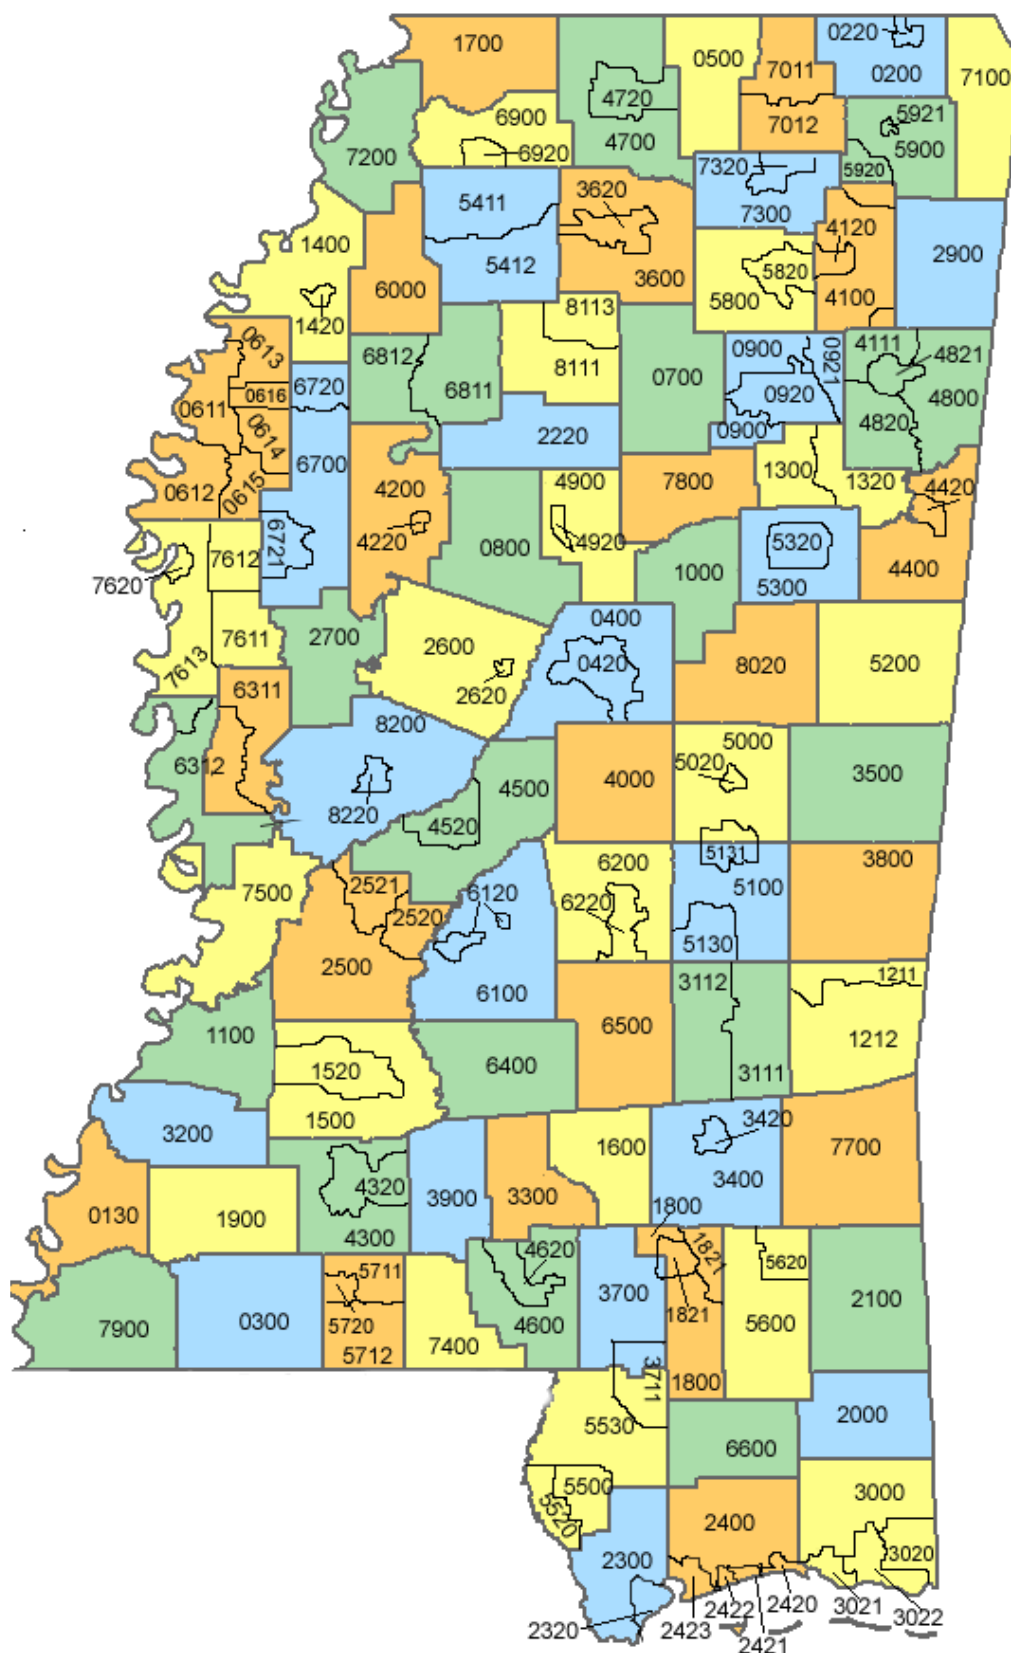

If you would like to view this report online, visit <http://www.mde.k12.ms.us/SuperintendentsAnnualReport/report.pdf>. Please do not hesitate to call upon me or my staff to further assist you regarding the contents of this annual report or any other education information that you may need.

Sincerely,  
Tom Burnham, Ed.D.

MISSISSIPPI STATE BOARD OF EDUCATION

Name	Term Expires
Mr. William Harold Jones, Chair <i>Petal, Miss</i>	July 2017
Mr. Charles McClelland, Vice Chair <i>Jackson, Miss</i>	July 2010

# *Vocational Education*

## OFFICE OF VOCATIONAL EDUCATION AND WORKFORCE DEVELOPMENT

Career and technical education programs administered by the Office of Vocational Education and Workforce Development (OVE&WD) prepare all students for new jobs, roles, technologies and responsibilities to develop a competent workforce to support and enhance Mississippi's economy. The delivery system is effective and responsive to changing needs of business and industry. OVE&WD programs are part of an integrated educational delivery system that accommodates every secondary and postsecondary school district and provided instructional services to 180,522 Mississippians last year.

Career and technical programs in secondary, postsecondary, short-term adult, industry training and business and industry partnership settings enable students to acquire needed skills and abilities and achieve their educational and occupational goals. Programs include Agriculture, Family & Consumer Sciences, Marketing, Trade and Industrial Education, Cooperative Education, Health, Technical Education, Business Education, Science and Technology and Short-Term Adult Programs to meet local needs.

### **Secondary Programs:**

Two hundred forty-three (243) Career Discovery programs introduced 20,713 seventh-grade students to career opportunities and the skills needed to develop and implement individual student career/educational plans that reflect student aptitudes, interests and abilities. The programs provide experiences and activities that promote self-awareness, career exploration and educational planning related to each student's educational and occupational plans.

Two hundred seventy-two (272) Computer Discovery programs exposed 28,659 eighth-grade students to a multimedia environment in which they developed computer skills, keyboarding, operating systems (Windows) use and file management. Real-world applications in word processing, graphics, databases, telecommunications, spreadsheets and desktop publishing make the course exciting, relevant and challenging.

One hundred eighty-one (181) Technology Discovery programs enabled 18,562 ninth-grade students to explore technology resources, processes and systems that lead to enhanced career development and advanced education. Students learned through researching, visualizing, modeling, designing, simulating, prototyping, keeping journals, preparing and making presentations and demonstrations, problem-solving, role-playing and testing.

Thirty-two (32) Information and Communication Tech I (ICTI) programs served 8,846 seventh grade students and 13 Information and Communication Tech II (ICTII) programs served 3,324 eight grade students.

Thirty-one (31) Science, Technology, Engineering and Math (STEM) programs served 6,770 ninth-grade students.

The comprehensive career planning/counseling component of Tech Prep organizes and expands career development strategies, activities and experiences and assists all students in making realistic, achievable career plans. The career plans initiated in the seventh grade and updated annually through the 12th grade help keep students focused on their goals.

Forty-three (43) Introduction to Agriculture Science programs served 1,339 students.

Two hundred twenty-four (224) Family and Consumer Sciences Programs funded through H.B. 1467 served 42,628 unduplicated students. Some students enrolled in more than one of the course offerings that included Family Dynamics in grades nine through twelve and other, optional, courses such as Child Development, Family/Individual Health, Family Living & Parenthood, Foods and Nutrition, Nutrition and Wellness, Personal Development and Resource Management.

Forty-nine (49) Technology Applications programs served 745 students.

Secondary occupational programs provide for the development of essential, program area specific, occupational and entrepreneurial skills for students in grades ten through 12. Instruction in these programs incorporates structured learning activities that integrate vocational and academic objectives. Upon program completion, individuals possess marketable job skills and may enter the workforce or pursue postsecondary education in directly-related or indirectly-related occupational and technical areas with possibilities for advanced placement or other postsecondary offerings.

One thousand two hundred eighty-nine (1,289) secondary occupational programs served 28,394 students.

### Postsecondary Programs:

Postsecondary programs provide beginning, advanced and technical, program area specific, occupational and entrepreneurial preparation for skilled/technical occupations. These programs reflect current and emerging technologies and address the needs of industry and other employers. State-of-the-art technology used in industry and integrated academic components are incorporated in the curriculum. Upon completion of a postsecondary occupational program, individuals are prepared to

enter skilled/technical level occupations.

In FY2008, 368 postsecondary programs served 16,055 students.

## Short-Term Adult Programs

In FY2008, 254 state funded short-term adult classes were conducted by secondary institutions serving 4,778 students.

Eighty-four (84) federally funded short-term adult programs conducted by secondary and postsecondary districts served 1,286 adult students enrolled.

## Accountability and Assessment

The Mississippi Department of Education Office of Student Assessment, in cooperation with the OVE&WD, has developed and implemented a customized vocational assessment program, Mississippi Career Planning and Assessment System (MS-CPAS), which is used to determine progress in attaining educational goals. MS-CPAS is comprised of a number of occupation-specific examinations developed by the Mississippi State Research and Curriculum Unit (RCU) for use in measuring occupational knowledge and skills. The CPAS exams were printed and scored by the Research and Curriculum unit. The occupation-specific examinations are each tailored to correspond to specific vocational-technical programs within the Mississippi Curriculum Framework.

Forty-seven (47) Occupation-specific examinations were administered to completers of secondary vocational-technical program CIP types and 53 Occupation-specific examinations were administered to completers of postsecondary vocational-technical program CIP types.
